
SALT LAKE CITY COUNCIL STAFF REPORT

DATE: January 8, 2002

SUBJECT: Interlocal Agreement with the Utah Department of Transportation for the reconstruction of South Temple from Main Street to Virginia Street.

STAFF REPORT BY: Michael Sears, Budget and Policy Analyst

Document Type	Budget-Related Facts	Policy-Related Facts	Miscellaneous Facts
Resolution	The proposed Interlocal Agreement with the Utah Department of Transportation for the reconstruction of South Temple is for the reimbursement program between Salt Lake City and UDOT. The City's financial obligations have been budgeted for by the City Council.	This resolution authorizes the Mayor to approve the interlocal agreement on behalf of the City.	The Interlocal Agreement specifies that the City will pay for any costs incurred during this project above the estimated amount.

The City Council will hold a briefing on January 10, 2002 regarding the proposed resolution and consider taking action on January 15, 2002. The following are possible motions that the Council can make regarding this resolution.

1. ["I move that the Council"] **Adopt a resolution authorizing the approval of an Interlocal Cooperation Agreement between Salt Lake City Corporation and the Utah Department of Transportation.**
2. ["I move that the Council"] **Not adopt a resolution authorizing the approval of an Interlocal Cooperation Agreement between Salt Lake City Corporation and the Utah Department of Transportation.**

MATTERS AT ISSUE

The Administration is recommending that the City Council adopt a resolution authorizing the Mayor to approve an Interlocal Cooperation Agreement between Salt Lake City and the Utah Department of Transportation. The agreement is for the reconstruction of South Temple between Main Street and Virginia Street. The City has budgeted \$869,849 for this project. The budgeted amount was appropriated in fiscal year 1999-2000. The City's amount is the local authority match that is required. The federal government has approved \$10,500,000 for this project.

The Public Utilities Department has also allocated \$1,300,000 to this project for the upgrade and replacement of utilities under South Temple. The Public Utilities portion of the project has been programmed into the overall street reconstruction schedule.

This project has been reviewed by the City Council before, and several interlocal agreements are already in place concerning the design and construction of this project. This interlocal agreement is for the reimbursement program of this project. The design work for this project is nearing completion and the actual construction is scheduled to begin in spring of 2002 and be completed by the fall of 2003.

Specific projects details are included in the transmittal from the Administration.
